高速单针平缝机

High speed single needle lockstitch sewing machine

HY-128

HY-221

本系列单针平缝机均采用连杆式送料机构连杆挑线，旋梭勾线、构成双线锁式线迹。上下轴用螺旋伞齿轮传动，圆盘式针距调节机构、杠杆式倒顺缝机构、全自动润滑。线迹平整美观，高低速缝切、倒顺缝针距误差小。HY-128广泛适用于针织、时装、牛仔等薄至中厚料缝切。HY-221适用于缝制各种皮革、帆布等中厚至厚料缝切。

This single needle lockstitch sewing machine series adopts link take-up and rotating hook to form lockstitch, and link-driven feed mechanism which minimizes stitch length difference occurring when sewing between at high speed and at low speed or between forward feeding and backward feeding. The arm shaft and hook shaft are driven by bevel gear. It features dialed stitch regulator, lever type forward-backward sewing mechanism, fully automatic lubrication, neat and beauty stitches. It is available to sew light, medium weight material. Both models HY-221 are suitable for medium-heavy weight material such as leather, canvas, etc.

本系列平缝机采用自动润滑系统、针杆、挑线杆和送料机构采用合金钢制造、运转和顺、噪音小、震动低、其中采用大旋梭，减少了换底线次数。

These machines use automatic lubrication system and the needle bar, take-up lever and feed mechanism adopts excellent quality alloy steel to make the machines operate smoothly with low noise and low vibration, The use of large hook on reduces the times of bobbin change.
